What we do

Nisora Digital designs and builds considered websites and tailored digital products with clear structure, distinctive visual direction and practical business outcomes.

Core services & estimated investment

Service	Estimated investment	What is included
Landing Page	SAR 2,500–4,000	Custom single-page website, responsive layout, CTA, enquiry form, basic SEO and deployment.
Custom Business Website	SAR 8,000–14,000	5–8 pages, custom branding, services/projects, WhatsApp or email contact, basic SEO and handover.
Premium Corporate Website	SAR 15,000–25,000	8–15 pages, bespoke visual system, premium typography, motion, case studies and launch support.
Interactive Experience Website	SAR 25,000–45,000+	Animated hero, scroll storytelling, transitions, interactive showcases, parallax and responsive motion.
E-commerce Website	SAR 18,000–35,000+	Storefront, products, search, cart, checkout, payments, basic order workflow and SEO.
Booking & Appointment System	SAR 12,000–25,000	Service/date/time selection, customer forms, confirmations, availability logic and integrations.
Custom Web Application	SAR 40,000–100,000+	Custom UI, authentication, roles, dashboards, database, admin tools, APIs and reports.
Advanced Integrations	SAR 4,000–15,000+	Payments, CRM, email, WhatsApp, booking, maps, analytics, APIs and lead workflows.
SEO & Content Setup	SAR 3,000–8,000	Technical review, metadata, headings, alt text, internal links, sitemap and content formatting.
Website Redesign	SAR 10,000–20,000	UX review, visual refresh, mobile improvements, content restructuring and launch support.
Maintenance & Optimization	SAR 1,000–2,500	Bug fixes, updates, responsive corrections, performance checks and minor improvements.

Prices are estimates. Final quotations depend on scope, content, integrations, language support, hosting and third-party services.

Selected work

Silverline · Completed

Premium corporate website for a facilities-management and support-services business, with service storytelling, project galleries and enquiry-focused interactions.

Rankora · Ongoing

Competitive esports platform concept with tournament workflows, brackets, player progression, statistics and an administrative command center.

Trust & protection

We work with defined scopes, transparent estimates, structured handovers and practical recommendations. Security, performance and responsive behavior are considered throughout the build.
